

Complete Recycling Solutions

- Waste Paper
- Bottles and Cans
- E-waste

Environmental Awareness: State-of-the-Art Facilities Maximize Recycling

IESI NY Enters Joint Venture with Weyerhaeuser!

Through our joint venture with Weyerhaeuser, a Fortune 100 company, IESI is a proven leader in NYC's waste paper recycling industry. By using state of the art equipment, Core Recycling can take the crudest office waste and turn it into mill ready end product. By virtue of this facility, IESI gained a competitive edge in a volatile recycling market.

By choosing IESI, our clients are assured of maximizing the recycling yield of their workplace. With over 24 sorting stations, the process ensures for the removal of all non salvageable contaminants from the office waste. Low grade recyclable items such as coated paper, corrugated cardboard and newspaper are also extracted during this sorting process and are shipped to mills that specialize in using these particular commodities for their recycled product.

Notwithstanding the numerous sorting stations, the main component of the system is a 36 foot rotating circular screen referred to as a trommel. The trommel provides for the removal of "finer" contaminants such as broken glass, dirt, grinds, bottle caps and many other items that can not be removed with manual labor. This insures the cleanest end product possible.

The relationship between Weyerhaeuser and Core Recycling is unique in itself. Weyerhaeuser has a long term agreement with Core which features a guaranteed take away of finished product. Weyerhaeuser has committed the capital and equipment needed to process over 500 tons of office waste per day. Core's end product continues to far exceed mill expectations.

Having an ongoing relationship with a Fortune 100 company such as Weyerhaeuser has provided IESI with the stability needed in a volatile recycling market. The facility itself is the first of its kind in the Northeast Region and has become the hallmark of Weyerhaeuser's recycling division. Core Recycling is considered a "Preferred Supplier" to Weyerhaeuser.

IESI NY and Weyerhaeuser Recycling Together!
